treatment spotlight: winter skin concerns

Harsh, cold weather and dry, indoor temperatures can lead to skin dullness and visible signs of premature aging. Restore that healthy glow with professional treatments that deeply exfoliate, lock in moisture, and promote cell renewal and turnover.

✓ compromised barrier function ✓ dryness and dehydration ✓ redness and sensitivity

microZone® express skin treatment

Boost your revenue with this cost-effective solution, ideal for men, women and teens with little time to spare! In just 20 minutes, target a key skin concern and educate your clients on the benefits of a full-service treatment.

MicroZone Moisture Boost – Rehydrate and replenish dry, uncomfortably-tight, thirsty skin. This deeply-penetrating, moisture-surge treatment lifts away dulling skin debris to reveal plump new cells and help soften surface lines. Help your clients discover revived, dewy skin in a snap!
