

fact sheet

clear start™ blackhead clearing fizz mask

Targets blackheads before they turn into breakouts.

description

A unique mask that transforms into an active fizzing formula to help clear pores and target blackheads.

key benefits

- Unique fizzing formula helps to open pores and decongest skin.
- Facilitates blackhead clearing.
- Hydrates skin and helps control excess oil.

key ingredients

- **Sulfur** – provides anti-microbial benefits to help clear skin.
- **Kaolin Clay** – has naturally absorbent properties, soaks up excess oil and purifies the skin.
- **Pyrus Malus (Apple Fruit) Extract** – a saccharide complex, increases skin hydration.

how to use it

Apply a thin layer to cleansed skin on areas of congestion, and allow 3-5 minutes to fully activate. Rinse thoroughly with tepid water, and follow with your recommended Clear Start™ product. Use 2-3 times per week or as needed.

frequently asked questions

Is this product replacing any existing Clear Start™ products?

Yes, this product is replacing Blackhead Clearing Pore Control Scrub.

How is this product different from the (discontinued) Blackhead Clearing Pore Control Scrub?

While both products are clay-based formulas that help clear blackheads, NEW Blackhead Clearing Fizz Mask contains more advanced technology that delivers a unique fizzing experience and actively works to target and clear blackheads.

What makes this product yellow? Will it stain my client's skin?

The product's yellow hue comes from Turmeric, which contains curcumin, which helps soothe the skin. This product will not stain the skin.

How does my client know when to remove this product?

Advise your client to wait 3-5 minutes for the product to fizz while it works. Once the fizz starts to die down, it is ready to be rinsed off. If your client experiences any irritation, they should remove the product immediately.

Where should my client apply this product?

Clear Start Blackhead Clearing Fizz Mask is formulated to be used wherever your client has blackheads. They can apply it in one spot, on the T-zone or all over the face.

What is the appropriate age range for this product?

Clear Start products are ideal for clients in their teens and early 20s.

What is the difference between Clear Start and MediBac Clearing®?

Clear Start is formulated for younger skin, which is more likely to experience rampant breakouts due to excess oil. MediBac Clearing is formulated for more mature skin, which is likely to experience recurring hormonal breakouts, slower cell turnover, and post-inflammatory hyperpigmentation.

How long does it take to see results?

The product will visibly activate and fizz within 3-5 minutes. It helps soften blackheads and facilitate blackhead clearing, but it will not "pull out" blackheads or make them instantly disappear.

Is this product vegan?

Yes, all Clear Start products are vegan, gluten-free and cruelty-free. They are also formulated without artificial fragrances or colors.

Does this product need to be used in conjunction with other Clear Start products?

No. While Clear Start products are designed to work together, the Blackhead Clearing Fizz Mask will help treat blackheads regardless of your client's current skin care regimen.

What's the best regimen to fight blackheads and breakouts?

There's no one right way to treat and prevent blackheads and breakouts. The best solution depends on your client's skin and product preferences. In general, Clear Start products work particularly well for younger, breakout-prone skin.
