- ✓ target fine lines, dehydration, hyperpigmentation, congestion and more
- ✓ it's customizable and layerable to target multiple skin concerns
- ✓ quick results with minimal downtime

BEFORE

AFTER

Results seen after one treatment using three layers of Advanced Renewal Peel
in conjunction with advanced modalities.

cell turnover slows dramatically as we age

Cell turnover declines from approximately 28 days in younger adults, taking up to 45 days in older adults.

As this happens, it affects the skin's appearance and texture in a variety of ways. From fine lines and dehydration to congestion and hyperpigmentation, chemical peels are one of the most effective ways to address these changes. Our fastest, strongest and completely customizable peel treatment is the best solution for addressing one or more of these concerns.

Book a Dermalogica Pro Power Peel with our Skin Therapist to achieve your healthiest-looking skin ever.
