

**skin condition**

All skin conditions.

**description**

Light-activated multitasking moisturizer provides broad spectrum defense while preventing future signs of skin damage. Intelligent drone technology is activated by visible light to help boost skin's natural luminosity. Breakthrough antioxidant technology helps protect skin against pollution. Broad Spectrum SPF30 provides protection from UV damage, while a bio-ferment from Sage helps maintain an even skin tone. Advanced moisture magnets provide all-day hydration for visibly smooth skin.

**key ingredients**

**Intelligent drone technology** is activated by visible light to help boost skin's natural luminosity.

Plant-derived **advanced moisture magnets** connect with skin's surface layers – providing all-day hydration for visibly smooth skin.

**Matcha Tea (Camellia Sinensis)**

from Japan provides 100 times more polyphenols than traditional green tea along with exceptional antioxidant protection, helping to defend skin against pollution.

A **bio-ferment from Sage** helps to brighten and even skin tone.

**benefits / top retailing points**

Prisma Protect SPF30 works with skin's daytime defense mode to:

- **Defend** against visible light, free radical damage and pollution
- **Hydrate** for visibly smooth skin all day long
- **Boost** skin's natural luminosity
