fight back with vitamin c

Vitamin C is one of the most potent antioxidants available and is scientifically proven to tackle the biological processes that lead to skin ageing.

but not all vitamin c is created equal
Most topical Vitamin C products can't penetrate the skin to provide protection.

the solution: biolumin-c serum
Using ultra-stable Vitamin C complex with advanced bio-technology, BioLumin-C Serum delivers the maximum amount of Vitamin C for brighter, firmer, more radiant skin.
