Environmental precautions:

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Methods and materials for containment and cleaning up

Contain spillage, and then absorb with industrial absorbent, or collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations. See also Sec. 13.

7. Handling and storage

Precautions for safe handling: Avoid contact with skin and eyes. Avoid inhalation of vapors or mist. Keep away from sources of ignition - No smoking. Prevent the build up of electrostatic charge. Conditions for safe storage: Keep container tightly closed in a dry and well-ventilated place.

Containers which have been opened must be resealed and kept upright to prevent leakage.

8. Exposure controls / personal protection

Information on the system design:	
This is a personal care or o	cosmetic product that is safe when used as directed.
Exposure Limits:	Reference 29CFR 1910.1000 Table Z-1
Component Name, CAS#	
Lactic Acid CAS 50-21-5	Not established
NE= Not Established	
Personal protective equipment	
Respiratory protection:	No requirement anticipated
Hand protection:	Rubber gloves.
Eye protection:	Safety glasses with side-shields.
Skin and body protection:	Chemical resistant apron or protective suit if splashing or repeated contact with solution is likely; flame retardant and antistatic properties are recommended.
Hygiono mossuros	

Hygiene measures

Wash hands and face before breaks and immediately after handling the product. Handle in accordance with good industrial hygiene and safety practice. 9. Physical and chemical properties

Color:	Light yellow	
Appearance:	Hazy Translucent liquid gel	
Odor:	Characteristic	
pH-value:	1.25-1.75	
Melting point:	NA	
Freezing Point:	NA	
Flash point:	NA	
Vapor Density:	NA	
Specific Gravity:	1.07	
Solubility in water :	NA	
Viscosity:	2400-2700 cps	

10. Stability and reactivity

Chemical stability: No decomposition, if used according to specifications.

Possibility of hazardous reactions: May form explosive mixture with air.

Conditions to avoid: Heat, flames and sparks. Extremes of temperature and direct sunlight.

Materials to avoid: Caustics, amines, strong oxidizing agents

Hazardous decomposition products: none anticipated

11. Toxicological information

No ingredient in this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC, ACGIH, NTP, or OSHA. California Prop. 65 chemicals: This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm. *ATE= Acute Toxicity Estimate **Signs and Symptoms of Exposure:**

Central nervous system depression, prolonged or repeated exposure can cause nausea, dizziness, drowsiness, narcosis from alcohol vapors.

12. Ecological information Ecotoxicity: Not available for the product. BOD and COD: Not available. Products of Biodegradation: Hazardous short term degradation products are not likely. Toxicity of the Products of Biodegradation: The product itself and its products of degradation are not toxic.

 Special Remarks on the Products of Biodegradation: The product rich and its products of degradation are not special and its products of degradatis and its products of degradatis are not speci

13. Disposal considerations

Dispose in accordance with local, state and federal regulations.

14. Transport information

Ground DOT (US):	Non-hazardous
Vessel (IMDG):	Non-hazardous
Air (IATA):	Non-hazardous

15. Regulatory information
