

new! skin soothing hydrating lotion

description

Skin Soothing Hydrating Lotion is a lightweight moisturiser formulated with hydrating properties and soothing botanicals to provide instant relief of skin dehydration. This formula is perfect for users of prescription acne medications that have been known to cause excessive drying of the skin. This product can be used in the morning and at night.

key ingredients

Hyaluronic Acid – seals hydration in the skin and provides protection against environmental assault.

Squalene – prevents moisture loss while restoring skin suppleness.

Naringenin and Panthenyl Triacetate - a synergistic blend of a citrus bioflavonoid and derivative of Vitamin B5 that soothe and nourish dehydrated skin.

benefits

Helps relieve dehydrated skin associated with prescription acne treatments.

Gentle botanicals including Ginger, Orange and Grapefruit soothe and protect the skin.

Moisturising Squalene softens and nourishes along with Hyaluronic Acid to provide instant relief of skin dehydration.

Non medicated, SPF free formula which is great for night time use.

application

After cleansing with Breakout Clearing Foaming Wash and toning with Breakout Clearing All Over Toner, apply over the entire face and neck, day and night.
